

CCFT Senate Report 8-25-2023

1. The CCFT leadership welcomes you to fall semester. We're here for you if you have contractual concerns or difficulties. Please reach out to your divisional union Council representative or to Mike Mogull or Greg Baxley.
2. Many people are aware that the college is facing a lot of turnover in staff and management and we've had a few faculty in critical areas leave as well. The faculty union is working to help remedy the situation and to ensure that our students get the services they need for success. The Basic Needs Center and Student Resolutions response times are long so students won't get served right away.
3. **Extra Pay:** Before starting on any project or work where you are expecting extra compensation, it's essential to work with your division chair to get preapproval from your dean. Only your dean can approve extra pay.
4. **Compensation for trainings:** You may have gotten emails about required trainings this week. These are required by various governmental agencies. Compensation of up 3.5 hours is available for PT faculty. Please see the email sent to PT faculty on 8-25.
5. CCFT needs appointees for the **search committees** for management positions EOPS/CalWorks and DSPS. PT faculty can earn a \$500 stipend for serving. Please contact Greg Baxley for details.
